Independent Auditor's Report On The Consolidated Financial Statements Of Sat Industries Limited

Independent Auditor's Report To the Members of SAT INDUSTRIES LIMITED Report on the Consolidated Ind AS Financial Statements

1. We have audited the accompanying consolidated Ind AS financial statements of SAT INDUSTRIES LIMITED (hereinafter referred to as "the Parent") and its subsidiaries (the Parent and its subsidiaries together referred to as "the Group") and its associate, comprising of the Consolidated Balance Sheet as at 31st March, 2018, the Consolidated Statement of Profit and Loss including other comprehensive income, the Consolidated Cash Flow Statement, the Consolidated Statement of Changes in Equity, for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated Ind AS financial statements").

Management's Responsibility for the Consolidated Ind AS Financial Statements

2. The Parent's Board of Directors is responsible for the preparation of these consolidated Ind AS financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and statement of changes in equity of the Group including its associates in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act. The respective Board of Directors of the companies included in the Group and of its associates are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and its associates and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the Directors of the Parent, as aforesaid.

Auditor's Responsibility

3. Our responsibility is to express an opinion on these consolidated Ind AS financial statements based on our audit. In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.
4. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated Ind AS financial statements are free from material Misstatement.
5. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Parent's preparation of the consolidated Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances.

An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Parent's Board of Directors, as well as evaluating the overall presentation of the consolidated Ind AS financial statements.

6. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in paragraph 8(a) of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated Ind AS financial statements.

Opinion

7. In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of the other auditors on separate financial statements of the subsidiaries and associate referred to in the Other Matters paragraph,

Independent Auditor's Report On The Consolidated Financial Statements Of Sat Industries Limited

the aforesaid consolidated Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group and its associate as at 31st March, 2018, and their consolidated profit, consolidated total comprehensive income, their consolidated cash flows and consolidated statement of changes in equity for the year ended on that date.

Other Matters

8. (a) we did not audit the financial statements of five subsidiaries, whose financial statements reflect total assets of Rs. 8164.02 lakhs as at 31st March, 2018, total revenues of Rs. 4998.12 lakhs and net cash outflows amounting to Rs. 1704.52 lakhs for the year ended on that date, as considered in the consolidated Ind AS financial statements. The consolidated Ind AS financial statements also include the Group's share of net loss of Rs. 25.92 lakhs for the year ended 31st March, 2018, as considered in the consolidated Ind AS financial statements, in respect of one associate, whose financial statements have not been audited by us. These financial statements have been audited by other auditors whose reports have been furnished to us by the management and our opinion on the consolidated Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and associate, and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries and associates, is based solely on the reports of the other auditors.

Certain of these subsidiaries are located outside India whose financial statements have been prepared in accordance with accounting principles generally accepted in their respective countries and which have been audited by other auditors under generally accepted auditing standards applicable in their respective countries. The Company's management has converted the financial statements of such subsidiaries from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Company's management. Our opinion in so far as it relates to

the balances and affairs of such subsidiaries is based on the report of other auditors and the conversion adjustments prepared by the management of the Company and audited by us.

- (b) The comparative financial information for the year ended 31st March, 2017 and the transition date opening balance sheet as at 1st April, 2016 in respect of five subsidiaries and one associate included in this consolidated Ind AS financial statements prepared in accordance with the Ind AS have been audited by other auditors and have been relied upon by us.

Our opinion on the consolidated Ind AS financial statements above, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

9. As required by Section 143(3) of the Act, based on our audit and on the consideration of the report of the other auditors on separate financial statements of subsidiaries and associate company incorporated in India, referred in the Other Matters paragraph above we report, to the extent applicable, that:
- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated Ind AS financial statements.
- b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated Ind AS financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
- c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated Ind AS financial statements.

Independent Auditor's Report On The Consolidated Financial Statements Of Sat Industries Limited

- d) In our opinion, the aforesaid consolidated Ind AS financial statements comply with the Indian Accounting Standards prescribed under Section 133 of the Act.
- e) On the basis of the written representations received from the directors of the Parent as on 31st March, 2018 taken on record by the Board of Directors of the Parent and the reports of the statutory auditors of its subsidiary companies and associate company incorporated in India, none of the directors of the Group companies and its associate company incorporated in India is disqualified as on 31st March, 2018 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls with reference to financial statement over financial reporting and the operating effectiveness of such controls, refer to our separate Report in "Annexure A", which is based on the auditor's Reports of the Parent, subsidiary companies and associate company, which are companies incorporated in India. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Parent's, subsidiary companies and associate company's internal financial controls over financial reporting.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
- i) There is no litigation pending having impact on the consolidated financial position of the Group and its associate in accordance with the generally accepted accounting practice
- ii) The Group and its associate did not have any material foreseeable losses on Long-term contracts including derivative contracts.
- iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Parent and its subsidiary companies and associate company incorporated in India.

Independent Auditor's Report

Annexure - A to the Independent Auditor's Report

Report on the Internal Financial Controls in respect of financial statement under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated Ind AS financial statements of the Company as of and for the year ended 31st March, 2018, we have audited the internal financial controls in respect of financial statement of Sat Industries Limited (hereinafter referred to as "the Parent") and its subsidiary companies and its associate company, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Boards of Directors of the Parent, its subsidiary companies and its associate company, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Group considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective Group's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Parent, its subsidiary companies and its associate company, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan

and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the subsidiary companies and associate company, which are companies incorporated in India, in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Parent, its subsidiary companies and its associate company, which are companies incorporated in India.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Independent Auditor's Report On The Consolidated Financial Statements Of Sat Industries Limited

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion to the best of our information and according to the explanations given to us and based on the consideration of the other auditors referred to in the Other Matters paragraph below, the Parent, its subsidiary companies and its associate company, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2018, based on the internal control over financial reporting criteria established

by the Group considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to four subsidiary companies and one associate company, which are companies incorporated in India, is based solely on the corresponding reports of the auditors of such companies incorporated in India.

Notes to the Consolidated Financial Statements

1. Company Information

Sat Industries Limited (SIL) - parent - is a public limited Company domiciled in India and is incorporated under the provisions of the Companies Act, 1956. SIL is engaged in the manufacture of flexible packaging, leasing, investment etc. activities on its own and through subsidiaries and associate companies.

2. Significant Accounting Policies

Statement of Compliance

These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013. The financial statements have also been prepared in accordance with the relevant presentation requirements of the Companies Act, 2013. The Company adopted Ind AS from 1st April, 2017.

Up to the year ended 31st March, 2017, the Group prepared its financial statements in accordance with the requirements of previous Generally Accepted Accounting Principles (GAAP), which includes Standards notified under the Companies (Accounting Standards) Rules, 2006. These are the Group's first Ind AS financial statements. The date of transition to Ind AS is 1st April, 2016. Details of the exceptions and optional exemptions availed by the Group and principal adjustments along with related reconciliations are detailed in Note 39 (First-time Adoption).

Basis of Preparation

The financial statements are prepared in accordance with the historical cost convention, except for certain items that are measured at fair values, as explained in the accounting policies.

Fair Value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and / or disclosure purposes in these financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of Ind

AS 102 - Share-based Payment, leasing transactions that are within the scope of Ind AS 17 - Leases, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 - Inventories or value in use in Ind AS 36 - Impairment of Assets.

The preparation of financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of the accounting policies and the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the year. Actual results could differ from those estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period; they are recognised in the period of the revision and future periods if the revision affects both current and future periods.

Basis of Consolidation

The Consolidated Financial Statements (CFS) include the financial statements of the Company and its subsidiaries and together with the share of the total comprehensive income of associates.

Subsidiaries are entities controlled by the Group. Associate is an entity over which the Group exercise significant influence but does not control.

Control and significant influence is assessed annually with reference to the voting power (usually arising from equity shareholdings and potential voting rights) and other rights (usually contractual) enjoyed by the Group in its capacity as an investor that provides it the power and consequential ability to direct the investee's activities and significantly affect the Group's returns from its investment. Such assessment requires the exercise of judgement and is disclosed by way of a note to the Financial Statements. The Group is considered not to be in control of entities where it is unclear as to whether it enjoys such power over the investee.

The assets, liabilities, income and expenses of subsidiaries are aggregated and consolidated, line by line, from the date control is acquired by any Group entity to the date it ceases. Profit or loss and each component of other comprehensive income are attributed to the Group as

Notes to the Consolidated Financial Statements (Contd.)

owners and to the non-controlling interests. The Group presents the non-controlling interests in the Balance Sheet within equity, separately from the equity of the Group as owners. The excess of the Group's investment in a subsidiary over its share in the net worth of such subsidiary on the date control is acquired is treated as goodwill while a deficit is considered as a capital reserve in the CFS. On disposal of the subsidiary, attributable amount on goodwill is included in the determination of the profit or loss and recognised in the Statement of Profit and Loss.

Impairment loss, if any, to the extent the carrying amount exceeds the recoverable amount is charged off to the Statement of Profit and Loss as it arises and is not reversed. For impairment testing, goodwill is allocated to Cash Generating Unit (CGU) or a group of CGUs to which it relates, which is not larger than an operating segment, and is monitored for internal management purposes. An investment in an associate is initially recognized at cost on the date of the investment, and inclusive of any goodwill/capital reserve embedded in the cost, in the Balance Sheet. The proportionate share of the Group in the net profits / losses as also in the other comprehensive income is recognised in the Statement of Profit and Loss and the carrying value of the investment is adjusted by a like amount (referred as 'equity method').

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Operating Cycle

All assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013 and Ind AS 1 - Presentation of Financial Statements based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents.

Property, Plant and Equipment - Tangible Assets

Property, plant and equipment are stated at cost of acquisition or construction less accumulated depreciation and impairment, if any. For this purpose, cost includes deemed cost which represents the carrying value of property, plant and equipment recognised

as at 1st April, 2016 measured as per the previous GAAP. Cost is inclusive of inward freight, duties and taxes and incidental expenses related to acquisition. In respect of major projects involving construction, related pre-operational expenses form part of the value of assets capitalised. Expenses capitalised also include applicable borrowing costs for qualifying assets, if any. All upgradation / enhancements are charged off as revenue expenditure unless they bring similar significant additional benefits

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of asset.

Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the Statement of Profit and Loss.

Depreciation of these assets commences when the assets are ready for their intended use which is generally on commissioning. Items of property, plant and equipment are depreciated in a manner that amortizes the cost (or other amount substituted for cost) of the assets after commissioning, less its residual value, over their useful lives as specified in Schedule II of the Companies Act, 2013 on a straight line basis. Land is not depreciated.

The estimated useful lives of property, plant and equipment of the Group are as follows:

Buildings	30 Years
Plant and Equipment	7 - 25 Years
Furniture and Fixtures	8 - 10 Years
Vehicles	8 - 10 Years
Office Equipment	5 Years

No write off is made in respect of leasehold land.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets or, where shorter, the term of the relevant lease.

Property, plant and equipment's residual values and useful lives are reviewed at each Balance Sheet date and changes, if any, are treated as changes in accounting estimate.

Notes to the Consolidated Financial Statements (Contd.)

Goodwill on Consolidation

Goodwill arising on consolidation is stated at cost less impairment losses, where applicable. On disposal of a subsidiary, attributable amount of goodwill is included in the determination of the profit or loss recognised in the Statement of Profit and Loss. On acquisition of an associate, the goodwill / capital reserve arising from such acquisition is included in the carrying amount of the investment and also disclosed separately.

Impairment loss, if any, to the extent the carrying amount exceed the recoverable amount is charged off to the Statement of Profit and Loss as it arises and is not reversed. For impairment testing, goodwill is allocated to Cash Generating Unit (CGU) or group of CGUs to which it relates, which is not larger than an operating segment, and is monitored for internal management purposes.

Intangible Assets

Intangible Assets that the Company controls and from which it expects future economic benefits are capitalised upon acquisition and measured initially:

- a. for assets acquired in a business combination or by way of a government grant, at fair value on the date of acquisition/grant
- b. for separately acquired assets, at cost comprising the purchase price (including import duties and nonrefundable taxes) and directly attributable costs to prepare the asset for its intended use.

Internally generated assets for which the cost is clearly identifiable are capitalised at cost. Research expenditure is recognised as an expense when it is incurred. Development costs are capitalised only after the technical and commercial feasibility of the asset for sale or use has been established. Thereafter, all directly attributable expenditure incurred to prepare the asset for its intended use are recognised as the cost of such assets. Internally generated brands, websites and customer lists are not recognised as intangible assets.

The carrying value of intangible assets includes deemed cost which represents the carrying value of intangible assets recognised as at 1st April, 2016 measured as per the previous GAAP.

Intangible assets that have finite lives are amortized over their estimated useful lives by the

straight line method unless it is practical to reliably determine the pattern of benefits arising from the asset. An intangible asset with an indefinite useful life is not amortized.

All intangible assets are tested for impairment. Amortization expenses and impairment losses and reversal of impairment losses are taken to the Statement of Profit and Loss.

Thus, after initial recognition, an intangible asset is carried at its cost less accumulated amortization and / or impairment losses. The useful lives of intangible assets are reviewed annually to determine if a reset of such useful life is required for assets with finite lives and to confirm that business circumstances continue to support an indefinite useful life assessment for assets so classified. Based on such review, the useful life may change or the useful life assessment may change from indefinite to finite. The impact of such changes is accounted for as a change in accounting estimate.

Impairment of Assets

Impairment loss, if any, is provided to the extent, the carrying amount of assets or cash generating units exceed their recoverable amount.

Recoverable amount is higher of an asset's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset or cash generating unit and from its disposal at the end of its useful life.

Impairment losses recognised in prior years are reversed when there is an indication that the impairment losses recognised no longer exist or have decreased. Such reversals are recognised as an increase in carrying amounts of assets to the extent that it does not exceed the carrying amounts that would have been determined (net of amortization or depreciation) had no impairment loss been recognised in previous years.

Inventories

Inventories are stated at lower of cost and net realisable value. The cost is calculated on FIFO method. Cost comprises expenditure incurred in the normal course of business in bringing such inventories to its present location and condition

Notes to the Consolidated Financial Statements (Contd.)

and includes, where applicable, appropriate overheads based on normal level of activity. Net realisable value is the estimated selling price less estimated costs for completion and sale.

Obsolete, slow moving and defective inventories are identified from time to time and, where necessary, a provision is made for such inventories.

Foreign Currency Transactions

The presentation currency of the Group is Indian Rupee. Transactions in foreign currency are accounted for at the exchange rate prevailing on the transaction date. Gains / losses arising on settlement as also on translation of monetary items are recognised in the Statement of Profit and Loss.

Exchange differences arising on monetary items that, in substance, form part of the Group's net investment in a foreign operation (having a functional currency other than Indian Rupee) are accumulated in foreign currency translation reserve.

For the preparation of the consolidated financial statements:

- (a) assets and liabilities of foreign operations, together with goodwill and fair value adjustments assumed on acquisition thereof, are translated to Indian Rupees at exchange rates prevailing at the reporting period end;
- (b) income and expense items are translated at the average exchange rates prevailing during the period; when exchange rates fluctuate significantly the rates prevailing on the transaction date are used instead.

Differences arising on such translation are accumulated in foreign currency translation reserve and attributed to non-controlling interests proportionately. On the disposal of a foreign operation, all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Group is reclassified to the Statement of Profit and Loss. In relation to a partial disposal, that does not result in losing control over the subsidiary, the proportionate exchange differences accumulated in equity

is reclassified to the Statement of Profit and Loss

Investment in Associate

Investment in Associate is accounted for using the 'equity method' less accumulated impairment, if any.

Financial instruments, Financial assets, Financial liabilities and Equity instruments

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the relevant instrument and are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities measured at fair value through profit or loss) are added to or deducted from the fair value on initial recognition of financial assets or financial liabilities. Purchase or sale of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date when the Company commits to purchase or sell the asset.

Financial Assets

Recognition:

Financial assets include Investments, Trade receivables, Advances, Security Deposits, Cash and cash equivalents. Such assets are initially recognised at transaction price when the Group becomes party to contractual obligations. The transaction price includes transaction costs unless the asset is being fair valued through the Statement of Profit and Loss.

Classification:

Management determines the classification of an asset at initial recognition depending on the purpose for which the assets were acquired. The subsequent measurement of financial assets depends on such classification.

Notes to the Consolidated Financial Statements (Contd.)

Financial assets are classified as those measured at:

- (a) amortised cost, where the financial assets are held solely for collection of cash flows arising from payments of principal and/or interest.
- (b) fair value through other comprehensive income (FVTOTI), where the financial assets are held not only for collection of cash flows arising from payments of principal and interest but also from the sale of such assets. Such assets are subsequently measured at fair value, with unrealised gains and losses arising from changes in the fair value being recognised in other comprehensive income.
- (c) fair value through profit or loss (FVTPL), where the assets are managed in accordance with an approved investment strategy that triggers purchase and sale decisions based on the fair value of such assets. Such assets are subsequently measured at fair value, with unrealised gains and losses arising from changes in the fair value being recognised in the Statement of Profit and Loss in the period in which they arise.

Trade receivables, Advances, Security Deposits, Cash and cash equivalents etc. are classified for measurement at amortised cost while investments may fall under any of the aforesaid classes. However, in respect of particular investments in equity instruments that would otherwise be measured at fair value through profit or loss, an irrevocable election at initial recognition may be made to present subsequent changes in fair value through other comprehensive income.

Impairment:

The Group assesses at each reporting date whether a financial asset (or a group of financial assets) such as investments, trade receivables, advances and security deposits held at amortised cost and

financial assets that are measured at fair value through other comprehensive income are tested for impairment based on evidence or information that is available without undue cost or effort. Expected credit losses are assessed and loss allowances recognised if the credit quality of the financial asset has deteriorated significantly since initial recognition.

Reclassification: When and only when the business model is changed, the Group shall reclassify all affected financial assets prospectively from the reclassification date as subsequently measured at amortised cost, fair value through other comprehensive income, fair value through profit or loss without restating the previously recognised gains, losses or interest and in terms of the reclassification principles laid down in the Ind AS relating to Financial Instruments.

De-recognition: Financial assets are derecognised when the right to receive cash flows from the assets has expired, or has been transferred, and the Company has transferred substantially all of the risks and rewards of ownership. Concomitantly, if the asset is one that is measured at:

- (a) amortised cost, the gain or loss is recognised in the Statement of Profit and Loss;
- (b) fair value through other comprehensive income, the cumulative fair value adjustments previously taken to reserves are reclassified to the Statement of Profit and Loss unless the asset represents an equity investment in which case the cumulative fair value adjustments previously taken to reserves is reclassified within equity.

Income Recognition:

Interest income is recognised in

Notes to the Consolidated Financial Statements (Contd.)

the Statement of Profit and Loss using the effective interest method. Dividend income is recognised in the Statement of Profit and Loss when the right to receive dividend is established.

Financial Liabilities

Borrowings, trade payables and other financial liabilities are initially recognised at the value of the respective contractual obligations. They are subsequently measured at amortised cost. Any discount or premium on redemption / settlement is recognised in the Statement of Profit and Loss as finance cost over the life of the liability using the effective interest method and adjusted to the liability figure disclosed in the Balance Sheet.

Financial liabilities are derecognised when the liability is extinguished, that is, when the contractual obligation is discharged, cancelled and on expiry.

Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount is included in the Balance Sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

Equity Instruments

Equity instruments are recognised at the value of the proceeds, net of direct costs of the capital issue.

Revenue

Revenue is measured at the fair value of the consideration received or receivable for goods supplied and services rendered, net of returns and discounts to customers. Revenue from the sale of goods includes excise and other duties which the Group pays as a principal but excludes amounts collected on behalf of third parties, such as sales tax and value added tax.

Revenue from the sale of goods is recognised when significant risks and rewards of ownership have been transferred to the customer, which is mainly upon delivery, the amount of revenue can be measured reliably and recovery of the consideration is probable. Revenue from services is recognised in the periods in which the services are rendered.

Government Grant

The Group may receive government grants that require compliance with certain conditions related to the Group's operating activities or are provided to the Group by way of financial assistance on the basis of certain qualifying criteria.

Government grants are recognised when there is reasonable assurance that the grant will be received, and the Group will comply with the conditions attached to the grant. Accordingly, government grants:

- (a) related to or used for assets are included in the Balance Sheet as deferred income and recognised as income over the useful life of the assets.
- (b) related to incurring specific expenditures are taken to the Statement of Profit and Loss on the same basis and in the same periods as the expenditures incurred.
- (c) by way of financial assistance on the basis of certain qualifying criteria are recognised as they become receivable.

In the unlikely event that a grant previously recognised is ultimately not received, it is treated as a change in estimate and the amount cumulatively recognised is expensed in the Statement of Profit and Loss.

Notes to the Consolidated Financial Statements (Contd.)

i) Employee Benefits

Short-term Employee benefits Liabilities for wages and salaries including nonmonetary benefits that are expected to be settled wholly within twelve months after the end of the period in which the employees render the related service are classified as short term employee benefits and are recognized as an expense in the Statement of Profit and Loss as the related service is provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

ii) Post-Employment Benefits Defined Contribution Plans

Payments made to a defined contribution plan such as Provident Fund maintained with Regional Provident Fund Office and Superannuation Fund are charged as an expense in the Statement of Profit and Loss as they fall due.

Defined Benefit Plans

Gratuity Fund

The Group has an obligation towards gratuity, a defined benefit retirement plan covering eligible employees. Gratuity is payable to all eligible employees on death or on separation/ termination in terms of the provisions of the payment of the Gratuity (Amendment) Act, 1997 or as per the Company's scheme whichever is more beneficial to the employees.

Provident Fund

The contributions to the Provident Fund of employees are made to a Government administered Provident Fund and there are no further obligations beyond making such contribution.

iii) Other Long Term Employee Benefits

The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by the employees upto the end of the reporting period using the projected unit credit method

Re-measurements are recognised in profit or loss in the

period in which they arise. Actuarial gains and losses in respect of such benefits are charged to Statement of Profit and Loss in the period in which they arise.

Leases

Leases are recognised as a finance lease whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Group as a Lessee

Assets used under finance leases are recognised as property, plant and equipment in the Balance Sheet for an amount that corresponds to the lower of fair value and the present value of minimum lease payments determined at the inception of the lease and a liability is recognised for an equivalent amount.

The minimum lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in the Statement of Profit and Loss.

Rentals payable under operating leases are charged to the Statement of Profit and Loss on a straight-line basis over the term of the relevant lease unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

Group as a Lessor

Leases in which the Group does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Where the Group is a lessor under an operating lease, the asset is capitalised within property, plant and equipment and depreciated over its useful economic life. Payments received under operating leases are recognised in the Statement of Profit and Loss on a straight-line basis over the term of the lease.

Taxes on Income

Taxes on income comprises of current taxes and deferred taxes. Current tax in the Statement of Profit and Loss is provided as the amount of tax payable in respect of taxable income for the period using tax rates and tax laws enacted during the period, together with any adjustment to tax payable in respect of previous years.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities and the amounts used for taxation purposes (tax base), at the

Notes to the Consolidated Financial Statements (Contd.)

tax rates and tax laws enacted or substantively enacted by the end of the reporting period.

Deferred tax assets are recognised for the future tax consequences to the extent it is probable that future taxable profits will be available against which the deductible temporary differences can be utilised.

Income tax, in so far as it relates to items disclosed under other comprehensive income or equity, are disclosed separately under other comprehensive income or equity, as applicable.

Deferred tax assets and liabilities are offset when there is legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances related to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on net basis, or to realize the asset and settle the liability simultaneously.

Claims

Claims against the Group not acknowledged as debts are disclosed after a careful evaluation of the facts and legal aspects of the matter involved.

Provisions

Provisions are recognised when, as a result of a past event, the Group has a legal or constructive obligation; it is probable that an outflow of resources will be required to settle the obligation; and the amount can be reliably estimated. The amount so recognised is a best estimate of the consideration required to settle the obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation. In an event when the time value of money is material, the provision is carried at the present value of the cash flows estimated to settle the obligation.

Operating Segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker (CODM). The CODM, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Corporate Management Committee

Segments are organised based on business which have similar economic characteristics as well as exhibit similarities in nature of products and services offered, the nature of production processes, the type and class of customer and distribution methods.

Segment revenue arising from third party customers is

reported on the same basis as revenue in the financial statements. Inter-segment revenue is reported on the basis of transactions which are primarily market led. Segment results represent profits before finance charges, unallocated corporate expenses and taxes.

“Unallocated Corporate Expenses” include revenue and expenses that relate to initiatives/costs attributable to the enterprise as a whole and are not attributable to segments.

Financial and Management Information Systems

The Group’s Accounting System is designed to comply with the relevant provisions of the Companies Act, 2013, to provide financial information appropriate to the businesses and facilitate Internal Control.

Use of estimates and judgements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting period end. Although these estimates are based upon management’s best knowledge of current events and actions, actual results could differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

A. Judgements in applying accounting policies

The following are the judgements, apart from those involving estimations (see note below), that the Group have made in the process of applying the accounting policies and that have a significant effect on the amounts recognised in the consolidated financial statements:

1. Control:

The Group assessed whether or not it has control on its investees based on whether, as an investor, it has the power/rights and consequently the practical ability to direct the relevant activities of its investees unilaterally. In making this judgement, the Group considered the absolute size of its holding, the relative size of and dispersion of

Notes to the Consolidated Financial Statements (Contd.)

other shareholders, and whether any contractual arrangements exist between the Company (and its subsidiaries) and other shareholders of the investees. Based on this, and in accordance with its Accounting Policy, the Group has determined that the entities listed in the notes to the financial statements are the only entities over which Group has control.

2. Significant influence:

The Group assessed whether or not it has significant influence on its investees based on its practical ability to participate in the financial and operating policy decisions of the investee, though it is not in control of these policies. Based on such assessment, the Group determined that the entities listed in the notes to the financial statements are the only entities over which the Group has significant influence, and accordingly associates.

3. Useful life of Intangible Assets:

The Group is required to determine whether its intangible assets have indefinite or finite life which is a subject matter of judgement.

B. Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

1. Useful lives of property, plant and equipment and intangible assets:

As described in the significant accounting policies, the Group reviews the estimated useful lives of property, plant and equipment and intangible assets at the end of each reporting period.

2. Fair value measurements and valuation processes:

Some of the Group's assets and liabilities are measured at fair value for financial reporting purposes. In estimating the fair value of an asset or a liability, the Group uses market-observable data to the extent it is available. Where Level 1 inputs are not available, the Group engages third party valuers, where required, to

perform the valuation. Information about the valuation techniques and inputs used in determining the fair value of various assets, liabilities and share based payments are disclosed in the notes to the financial statements.

3. Actuarial Valuation:

The determination of Group's liability towards defined benefit obligation to employees is made through independent actuarial valuation including determination of amounts to be recognised in the Statement of Profit and Loss and in other comprehensive income. Such valuation depend upon assumptions determined after taking into account inflation, seniority, promotion and other relevant factors such as supply and demand factors in the employment market. Information about such valuation is provided in notes to the financial statements.

4. Claims, Provisions and Contingent Liabilities:

The Group has ongoing litigations with various regulatory authorities and third parties. Where an outflow of funds is believed to be probable and a reliable estimate of the outcome of the dispute can be made based on management's assessment of specific circumstances of each dispute and relevant external advice, management provides for its best estimate of the liability. Such accruals are by nature complex and can take number of years to resolve and can involve estimation uncertainty. Information about such litigations is provided in notes to the financial statements.

Notes to the Consolidated Financial Statements (Contd.)
C : FINANCIAL RISK MANAGEMENT

The Group has a system-based approach to risk management, anchored to policies and procedures and internal financial controls aimed at ensuring early identification, evaluation and management of key financial risks (such as market risk, credit risk and liquidity risk) that may arise as a consequence of its business operations as well as its investing and financing activities. Accordingly, the Group's risk management framework has the objective of ensuring that such risks are managed within acceptable and approved risk parameters in a disciplined and consistent manner and in compliance with applicable regulation. It also seeks to drive accountability in this regard.

The activities of the Group exposes it to a number of financial risks namely market risk, credit risk and liquidity risk and currency risk. The Group seeks to minimize the potential impact of unpredictability of the financial markets on its financial performance. The Group does regularly monitor, analyze and manage the risks faced by the Group and to set and monitor appropriate risk limits and controls for mitigation of the risks.

1. MANAGEMENT OF MARKET RISK:

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of three types of risks: interest rate risk, price risk and currency rate risk. Financial instruments affected by market risk includes borrowings and investments instruments. The Company is exposed to a variety of market risks, including currency and interest rate risks.

(i) Management of interest rate risk:

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group does not have any exposure to interest rate risks since its borrowings and investments are all in fixed rate instruments. Investments are largely in subsidiaries and associates and are on long term basis.

(ii) Management of price risk:

The Group invests its surplus funds in deposits with banks on short term tenors on fixed interest rate and the same is not exposed to any price risk. This risk is mitigated by the Group by investing the funds in various tenors depending on the liquidity needs of the Group.

(iii) Management of currency risk:

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Group has foreign currency trade receivables and is therefore exposed to foreign exchange risk. The Group mitigates the foreign exchange risk by setting appropriate exposure limits, periodic monitoring of the exposures etc.. The exchange rates have been volatile in the recent years and may continue to be volatile in the future. Hence the operating results and financials of the Group may be impacted due to volatility of the rupee against foreign currencies.

Exposure to currency risk (The Company has exposure in USD/EURO converted to functional currency i.e. INR)

The currency profile of financial assets and financial liabilities as at March 31, 2018, March 31, 2017 and April 1, 2016 are as below:

Financial assets	Exposure currency	Rs. in lakhs		
		As at 31.03.2018	As at 31.03.2017	As at 01.04.2016
Trade receivables	USD	219.72	151.97	18.73
	EURO	56.63	0	0
		276.35	151.97	18.73

Notes to the Consolidated Financial Statements (Contd.)
Sensitivity analysis

A reasonably possible 5% strengthening (weakening) of the Indian Rupee against USD at March 31 would have affected the measurement of financial instruments denominated in USD /EURO and affected profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.

	As at	Strengthening	Rs.in lakhs Weakening
Profit/(Loss)	31.03.2018	-13.81	13.81

B. MANAGEMENT OF CREDIT RISK:

Credit risk refers to the risk of default on its obligations by a counterparty to the Company resulting in a financial loss to the Company. The Company is exposed to credit risk from its operating activities (trade receivables) and from its financing activities including investments in deposits with banks.

Credit risk from trade receivables is managed through the Company's policies, procedures and controls relating to customer credit risk management by establishing credit limits, credit approvals and monitoring creditworthiness of the customers to which the Company extends credit in the normal course of business. Outstanding customer receivables are regularly monitored. The Company has no concentration of credit risk as the customer base is widely distributed.

The Company's customer base is large enough and does not have risk of credit concentration. Further, credit is extended in business interest.

C. MANAGEMENT OF LIQUIDITY RISK:

Liquidity risk is the risk that the Company may not be able to meet its present and future cash obligations without incurring unacceptable losses. The Company's objective is to maintain at all times, optimum levels of liquidity to meet its obligations. The Company closely monitors its liquidity position and has a robust cash management system. The Company maintains adequate sources of financing including debt and overdraft from domestic and international banks and financial markets at optimized cost.

The Company's Current assets aggregate to Rs. 5,984.86 lakhs (2017 – Rs. 5,558.25 lakhs; 2016 – Rs. 3,959.09 Lakhs) including Cash and cash equivalents and Other bank balances of Rs. 513.18 lakhs (2017 – Rs.1,442.58 lakhs; 2016 – Rs. 344.61 Lakhs) against an aggregate Current liability of Rs. 1,325.48 Lakhs (2017 – Rs.2,233.59 Lakhs; 2016 – Rs. 5,200.73 Lakhs); Non-current liabilities due between one year to three years amounting to Rs. 53.90 lakhs (2017 – NIL; 2016 – NIL) and Non-current liability due after three years amounting to Rs. NIL(2017 – NIL; 2016 – NIL) on the reporting date. Further, while the Company's total equity stands at Rs. 9,025.43 Lakhs (2017 – Rs. 7,563.89 Lakhs ; 2016 – Rs. 1,175.02 Lakhs), it has borrowings of Rs. 343.09 lakhs (2017 – Rs.47.79 lakhs; 2016 – Rs. 1,514.93 Lakhs). In such circumstances, liquidity risk or the risk that the Company may not be able to settle or meet its obligations as they become due does not exist.

The Group offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority.

Significant management judgment is required in determining provision for income tax, deferred income tax assets and liabilities and recoverability of deferred income tax assets. The recoverability of deferred income tax assets is based on estimates of taxable income in which the relevant entity operates and the period over which deferred income tax assets will be recovered.

During the year, the Group has not accounted for tax credits in respect of Minimum Alternative Tax (MAT credit) of Rs.109.92 lakhs (March 31, 2017 Rs. 43 lakhs, April 1, 2016 Rs. NIL). The Group is reasonably not certain availing the said MAT Credit in future years against the normal tax expected to be paid in those years and accordingly has not recognised a deferred tax asset for the same

Independent Auditor's Report On The Standalone Financial Statements Of Sat Industries Limited

To the Members of

M/s. Sat Industries Limited

Report on the Standalone Financial Statements

1. We have audited the accompanying standalone Ind AS financial statements of **SAT INDUSTRIES LIMITED** ("the Company"), which comprise the Balance Sheet as at 31st March, 2018, and the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Financial Statements

2. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

3. Our responsibility is to express an opinion on these standalone Ind AS financial statements based on our audit. In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder. We conducted our audit of the standalone Ind

AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone Ind AS financial statements are free from material misstatement.

4. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone Ind AS financial statements.

5. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Opinion

6. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2018, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date. I

Report on Other Legal and Regulatory Requirements

7. As required by Section 143(3) of the Act, based on our audit we report, to the extent applicable that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

Independent Auditor's Report On The Standalone Financial Statements Of Sat Industries Limited

Annexure - A to the Independent Auditor's Report on the Internal Financial Controls with reference to financial statement under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **SAT INDUSTRIES LIMITED** ("the Company") as of 31st March, 2018 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of

internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to (Referred to in paragraph 7 (f) under 'Report on Other Legal and Regulatory Requirements' of our report of even date) the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Independent Auditor's Report On The Standalone Financial Statements Of Sat Industries Limited

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to the Standalone Financial Statements

1. COMPANY INFORMATION

Sat Industries Limited (SIL) was incorporated on 23-11-1984 and having its registered office at Mumbai, Maharashtra. SIL is engaged in the business of international trading, investment and finance, leasing of assets, manufacturing of flexible packaging, education etc. through its own or through subsidiary and associate companies.

2. Significant Accounting Policies

Statement of Compliance

These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013. The financial statements have also been prepared in accordance with the relevant presentation requirements of the Companies Act, 2013. The Company adopted Ind AS from 1st April, 2017.

Up to the year ended 31st March, 2017, the Company prepared its financial statements in accordance with the requirements of previous Generally Accepted Accounting Principles (GAAP), which includes Standards notified under the Companies (Accounting Standards) Rules, 2006. These are the Company's first Ind AS financial statements. The date of transition to Ind AS is 1st April, 2016. Details of the exceptions and optional exemptions availed by the Company and principal adjustments along with related reconciliations are detailed in Note 32 (First-time Adoption).

Basis of Preparation

The financial statements are prepared in accordance with the historical cost convention, except for certain items that are measured at fair values, as explained in the accounting policies.

Fair Value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and / or disclosure purposes in these financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of Ind AS 102 – Share-based Payment, leasing transactions that are within the scope of Ind AS 17 – Leases, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 – Inventories or value in use in Ind AS 36 – Impairment of Assets.

The preparation of financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of the accounting policies and the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the year. Actual results could differ from those estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period; they are recognised in the period of the revision and future periods if the revision affects both current and future periods.

Operating Cycle

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013 and Ind AS 1 – Presentation of Financial Statements based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents.

Property, Plant and Equipment – Tangible Assets

Property, plant and equipment are stated at cost of acquisition or construction less accumulated depreciation and impairment, if any. For this purpose, cost includes deemed cost which represents the carrying value of property, plant and equipment recognised as at 1st April, 2016 measured as per the previous GAAP.

Cost is inclusive of inward freight, duties and taxes and incidental expenses related to acquisition. In respect of major

Notes to the Standalone Financial Statements (Contd.)

projects involving construction, related pre-operational expenses form part of the value of assets capitalised. Expenses capitalised also include applicable borrowing costs for qualifying assets, if any. All upgradation / enhancements are charged off as revenue expenditure unless they bring similar significant additional benefits.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the Statement of Profit and Loss.

Depreciation of these assets commences when the assets are ready for their intended use which is generally on commissioning. Items of property, plant and equipment are depreciated in a manner that amortizes the cost (or other amount substituted for cost) of the assets after commissioning, less its residual value, over their useful lives as specified in Schedule II of the Companies Act, 2013 on a straight line basis. Land is not depreciated.

The estimated useful lives of property, plant and equipment of the Company are as follows:

Plant and Equipment	7 – 25 Years
Furniture and Fixtures	8 – 10 Years
Vehicles	8 – 10 Years
Office Equipment	5 Years

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets or, where shorter, the term of the relevant lease.

Property, plant and equipment's residual values and useful lives are reviewed at each Balance Sheet date and changes, if any, are treated as changes in accounting estimate.

Intangible Assets

Intangible Assets that the Company controls and from which it expects future economic benefits are capitalised upon acquisition and measured initially:

- for assets acquired in a business combination or by way of a government grant, at fair value on the date of acquisition/grant
- for separately acquired assets, at cost comprising the purchase price (including import duties and nonrefundable taxes) and directly attributable costs to prepare the asset for its intended use.

Internally generated assets for which the cost is clearly identifiable are capitalised at cost. Research expenditure is recognised as an expense when it is incurred. Development costs are capitalised only after the technical and commercial feasibility of the asset for sale or use has been established. Thereafter, all directly attributable expenditure incurred to prepare the asset for its intended use are recognised as the cost of such assets. Internally generated brands, websites and customer lists are not recognised as intangible assets.

The carrying value of intangible assets includes deemed cost which represents the carrying value of intangible assets recognised as at 1st April, 2016 measured as per the previous GAAP.

The useful life of an intangible asset is considered finite where the rights to such assets are limited to a specified period of time by contract or law (e.g., patents, licences, trademarks, franchise and servicing rights) or the likelihood of technical, technological obsolescence (e.g., computer software, design, prototypes) or commercial obsolescence (e.g., lesser known brands are those to which adequate marketing support may not be provided). If, there are no such limitations, the useful life is taken to be indefinite. Intangible assets that have finite lives are amortized over their estimated useful lives by the straight line method unless it is practical to reliably determine the pattern of benefits arising from the asset. An intangible asset with an indefinite useful life is not amortized.

Notes to the Standalone Financial Statements (Contd.)

All intangible assets are tested for impairment. Amortization expenses and impairment losses and reversal of impairment losses are taken to the Statement of Profit and Loss. Thus, after initial recognition, an intangible asset is carried at its cost less accumulated amortization and / or impairment losses.

The useful lives of intangible assets are reviewed annually to determine if a reset of such useful life is required for assets with finite lives and to confirm that business circumstances continue to support an indefinite useful life assessment for assets so classified. Based on such review, the useful life may change or the useful life assessment may change from indefinite to finite. The impact of such changes is accounted for as a change in accounting estimate.

Impairment of Assets

Impairment loss, if any, is provided to the extent, the carrying amount of assets or cash generating units exceed their recoverable amount.

Recoverable amount is higher of an asset's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset or cash generating unit and from its disposal at the end of its useful life.

Impairment losses recognised in prior years are reversed when there is an indication that the impairment losses recognised no longer exist or have decreased. Such reversals are recognised as an increase in carrying amounts of assets to the extent that it does not exceed the carrying amounts that would have been determined (net of amortization or depreciation) had no impairment loss been recognised in previous years.

Inventories

Inventories are stated at lower of cost and net realisable value. The cost is calculated on FIFO Basis . Cost comprises expenditure incurred in the normal course of business in bringing such inventories to its present location and condition and includes, where applicable, appropriate overheads based on normal level of activity. Net realisable value is the estimated selling price less estimated costs for completion and sale.

Obsolete, slow moving and defective inventories are identified from time to time and, where necessary, a provision is made for such inventories.

Foreign Currency Transactions

The functional and presentation currency of the Company is Indian Rupee.

Transactions in foreign currency are accounted for at the exchange rate prevailing on the transaction date. Gains/ losses arising on settlement as also on translation of monetary items are recognised in the Statement of Profit and Loss.

Exchange differences arising on monetary items that, in substance, form part of the Company's net investment in a foreign operation (having a functional currency other than Indian Rupee) are accumulated in Foreign Currency Translation Reserve.

Investment in Subsidiary and Associate

Investment in subsidiary and associate are carried at cost less accumulated impairment, if any.

Financial instruments, Financial assets, Financial liabilities and Equity instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the relevant instrument and are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities measured at fair value through profit or loss) are added to or deducted from the fair value on initial recognition of financial assets or financial liabilities. Purchase or sale of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date when the Company commits to purchase or sell the asset.

Notes to the Standalone Financial Statements (Contd.)

Financial Assets

Recognition:

Financial assets include Investments, Trade receivables, Advances, Security Deposits, Cash and cash equivalents. Such assets are initially recognised at transaction price when the Company becomes party to contractual obligations. The transaction price includes transaction costs unless the asset is being fair valued through the Statement of Profit and Loss.

Classification:

Management determines the classification of an asset at initial recognition depending on the purpose for which the assets were acquired. The subsequent measurement of financial assets depends on such classification.

Financial assets are classified as those measured at:

- (a) amortised cost, where the financial assets are held solely for collection of cash flows arising from payments of principal and/or interest.
- (b) fair value through other comprehensive income (FVTOCI), where the financial assets are held not only for collection of cash flows arising from payments of principal and interest but also from the sale of such assets. Such assets are subsequently measured at fair value, with unrealised gains and losses arising from changes in the fair value being recognised in other comprehensive income.
- (c) fair value through profit or loss (FVTPL), where the assets are managed in accordance with an approved investment strategy that triggers purchase and sale decisions based on the fair value of such assets. Such assets are subsequently measured at fair value, with unrealised gains and losses arising from changes in the fair value being recognised in the Statement of Profit and Loss in the period in which they arise.

Trade receivables, Advances, Security Deposits, Cash and cash equivalents etc. are classified for measurement at amortised cost while investments may fall under any of the aforesaid classes. However, in respect of particular investments in equity instruments that would otherwise be measured at fair value through profit or loss, an irrevocable election at initial recognition may be made to present subsequent changes in fair value through other comprehensive income.

Impairment:

The Company assesses at each reporting date whether a financial asset (or a group of financial assets) such as investments, trade receivables, advances and security deposits held at amortised cost and financial assets that are measured at fair value through other comprehensive income are tested for impairment based on evidence or information that is available without undue cost or effort. Expected credit losses are assessed and loss allowances recognised if the credit quality of the financial asset has deteriorated significantly since initial recognition.

Reclassification: When and only when the business model is changed, the Company shall reclassify all affected financial assets prospectively from the reclassification date as subsequently measured at amortised cost, fair value through other comprehensive income, fair value through profit or loss without restating the previously recognised gains, losses or interest and in terms of the reclassification principles laid down in the Ind AS relating to Financial Instruments.

De-recognition: Financial assets are derecognised when the right to receive cash flows from the assets has expired, or has been transferred, and the Company has transferred substantially all of the risks and rewards of ownership. Concomitantly, if the asset is one that is measured at:

- (a) amortised cost, the gain or loss is recognised in the Statement of Profit and Loss;
- (b) fair value through other comprehensive income, the cumulative fair value adjustments previously taken to reserves are reclassified to the Statement of Profit and Loss unless the asset represents an equity investment in which case the cumulative fair value adjustments previously taken to reserves is reclassified within equity.

Notes to the Standalone Financial Statements (Contd.)

Income Recognition:

Interest income is recognised in the Statement of Profit and Loss using the effective interest method. Dividend income is recognised in the Statement of Profit and Loss when the right to receive dividend is established.

Financial Liabilities

Borrowings, trade payables and other financial liabilities are initially recognised at the value of the respective contractual obligations. They are subsequently measured at amortised cost. Any discount or premium on redemption / settlement is recognised in the Statement of Profit and Loss as finance cost over the life of the liability using the effective interest method and adjusted to the liability figure disclosed in the Balance Sheet.

Financial liabilities are derecognised when the liability is extinguished, that is, when the contractual obligation is discharged, cancelled and on expiry.

Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount is included in the Balance Sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

Equity Instruments

Equity instruments are recognised at the value of the proceeds, net of direct costs of the capital issue.

Revenue

Revenue is measured at the fair value of the consideration received or receivable for goods supplied and services rendered, net of returns and discounts to customers. Revenue from the sale of goods includes excise and other duties which the Company pays as a principal but excludes amounts collected on behalf of third parties, such as sales tax and value added tax.

Revenue from the sale of goods is recognised when significant risks and rewards of ownership have been transferred to the customer, which is mainly upon delivery, the amount of revenue can be measured reliably and recovery of the consideration is probable. Revenue from services is recognised in the periods in which the services are rendered.

Employee Benefits

- i) Short-term Employee benefits Liabilities for wages and salaries including nonmonetary benefits that are expected to be settled wholly within twelve months after the end of the period in which the employees render the related service are classified as short term employee benefits and are recognized as an expense in the Statement of Profit and Loss as the related service is provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Defined Benefit Plans

Gratuity Fund

The Company has an obligation towards gratuity, a defined benefit retirement plan covering eligible employees. Gratuity is payable to all eligible employees on death or on separation/ termination in terms of the provisions of the payment of the Gratuity (Amendment) Act, 1997 or as per the Company's scheme whichever is more beneficial to the employees.

Leases

Leases are recognised as a finance lease whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Notes to the Standalone Financial Statements (Contd.)

Company as a Lessee

Assets used under finance leases are recognised as property, plant and equipment in the Balance Sheet for an amount that corresponds to the lower of fair value and the present value of minimum lease payments determined at the inception of the lease and a liability is recognised for an equivalent amount.

The minimum lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in the Statement of Profit and Loss.

Rentals payable under operating leases are charged to the Statement of Profit and Loss on a straight-line basis over the term of the relevant lease unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

Company as a Lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Where the Company is a lessor under an operating lease, the asset is capitalised within property, plant and equipment and depreciated over its useful economic life. Payments received under operating leases are recognised in the Statement of Profit and Loss on a straight-line basis over the term of the lease.

Taxes on Income

Taxes on income comprises of current taxes and deferred taxes. Current tax in the Statement of Profit and Loss is provided as the amount of tax payable in respect of taxable income for the period using tax rates and tax laws enacted during the period, together with any adjustment to tax payable in respect of previous years.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities and the amounts used for taxation purposes (tax base), at the tax rates and tax laws enacted or substantively enacted by the end of the reporting period.

Deferred tax assets are recognised for the future tax consequences to the extent it is probable that future taxable profits will be available against which the deductible temporary differences can be utilised.

Income tax, in so far as it relates to items disclosed under other comprehensive income or equity, are disclosed separately under other comprehensive income or equity, as applicable.

Deferred tax assets and liabilities are offset when there is legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances related to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on net basis, or to realize the asset and settle the liability simultaneously.

Dividend

The Company recognises a liability for any dividend declared but not distributed at the end of the reporting period, when the distribution is authorised and the distribution is no longer at the discretion of the Company on or before the end of the reporting period. As per the Corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

Claims against the Company not acknowledged as debts are disclosed after a careful evaluation of the facts and legal aspects of the matter involved.

Provisions

Provisions are recognised when, as a result of a past event, the Company has a legal or constructive obligation; it is probable that an outflow of resources will be required to settle the obligation; and the amount can be reliably estimated. The amount so recognised is a best estimate of the consideration required to settle the obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation. In an event when the time value of money is material, the provision is carried at the present value of the cash flows estimated to settle the obligation.

Notes to the Standalone Financial Statements (Contd.)

Operating Segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker (CODM). The CODM, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Corporate Management Committee.

Segments are organised based on business which have similar economic characteristics as well as exhibit similarities in nature of products and services offered, the nature of production processes, the type and class of customer and distribution methods.

Segment revenue arising from third party customers is reported on the same basis as revenue in the financial statements. Inter-segment revenue is reported on the basis of transactions which are primarily market led.

Segment results represent profits before finance charges, unallocated corporate expenses and taxes. "Unallocated Corporate Expenses" include revenue and expenses that relate to initiatives/costs attributable to the enterprise as a whole and are not attributable to segments.

Financial and Management Information Systems

The Company's Accounting System is designed to comply with the relevant provisions of the Companies Act, 2013, to provide financial and cost information appropriate to the businesses and facilitate Internal Control.

Use of estimates and judgements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting period end. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

A. Judgements in applying accounting policies

The judgements, apart from those involving estimations (see note below), that the Company has made in the process of applying its accounting policies and that have a significant effect on the amounts recognised in these financial statements pertain to useful life of intangible assets. The Company is required to determine whether its intangible assets have indefinite or finite life which is a subject matter of judgement. Certain trademarks have been considered of having an indefinite useful life taking into account that there are no technical, technological or commercial risks of obsolescence or limitations under contract or law. Other trademarks have been amortized over their useful economic life. Refer notes to the financial statements.

B. Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

1. Useful lives of property, plant and equipment and intangible assets:

As described in the significant accounting policies, the Company reviews the estimated useful lives of property, plant and equipment and intangible assets at the end of each reporting period.

Notes to the Standalone Financial Statements (Contd.)

2. Fair value measurements and valuation processes:

Some of the Company's assets and liabilities are measured at fair value for financial reporting purposes. In estimating the fair value of an asset or a liability, the Company uses market-observable data to the extent it is available. Where Level 1 inputs are not available, the Company engages third party valuers, where required, to perform the valuation. Information about the valuation techniques and inputs used in determining the fair value of various assets, liabilities and share based payments are disclosed in the notes to the financial statements.

3. Actuarial Valuation:

The determination of Company's liability towards defined benefit obligation to employees is made through independent actuarial valuation including determination of amounts to be recognised in the Statement of Profit and Loss and in other comprehensive income. Such valuation depend upon assumptions determined after taking into account inflation, seniority, promotion and other relevant factors such as supply and demand factors in the employment market. Information about such valuation is provided in notes to the financial statements.

4. Claims, Provisions and Contingent Liabilities:

The Company has ongoing litigations with various regulatory authorities and third parties. Where an outflow of funds is believed to be probable and a reliable estimate of the outcome of the dispute can be made based on management's assessment of specific circumstances of each dispute and relevant external advice, management provides for its best estimate of the liability. Such accruals are by nature complex and can take number of years to resolve and can involve estimation uncertainty. Information about such litigations is provided in notes to the financial statements.

3 : FINANCIAL RISK MANAGEMENT

The Company has a system-based approach to risk management, anchored to policies and procedures and internal financial controls aimed at ensuring early identification, evaluation and management of key financial risks (such as market risk, credit risk and liquidity risk) that may arise as a consequence of its business operations as well as its investing and financing activities. Accordingly, the Company's risk management framework has the objective of ensuring that such risks are managed within acceptable and approved risk parameters in a disciplined and consistent manner and in compliance with applicable regulation. It also seeks to drive accountability in this regard.

The activities of the Company exposes it to a number of financial risks namely market risk, credit risk and liquidity risk. The Company seeks to minimize the potential impact of unpredictability of the financial markets on its financial performance. The Company does regularly monitor, analyze and manage the risks faced by the Company and to set and monitor appropriate risk limits and controls for mitigation of the risks.

A. MANAGEMENT OF MARKET RISK:

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of three types of risks: interest rate risk, price risk and currency rate risk. Financial instruments affected by market risk includes borrowings and investments instruments. The Company is exposed to a variety of market risks, including currency and interest rate risks.

(i) Management of interest rate risk:

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company does not have any exposure to interest rate risks since its borrowings and investments are all in fixed rate instruments. Investments are largely in subsidiaries and associates and are on long term basis.

(ii) Management of price risk:

The Company invests its surplus funds in deposits with banks on short term tenors on fixed interest rate and the same is not exposed to any price risk. This risk is mitigated by the Company by investing the funds in various tenors depending on the liquidity needs of the Company.

(iii) Management of currency risk:

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company has no foreign currency transactions and is, therefore, not exposed to foreign exchange risk.

The Company is not an active investor in equity markets; it continues to hold certain investments in equity for long term value accretion which are accordingly measured at fair value through Other Comprehensive Income. The value of investments in such equity instruments as at 31st March, 2018 is Rs.678.78 lakhs(2017 – Rs. 34.63 lakhs; 2016 – Rs. 34.63 Lakhs). Accordingly, fair value fluctuations arising from market volatility is recognised in Other Comprehensive Income.

As the Company is virtually debt-free and its deferred payment liabilities do not carry interest, the exposure to interest rate risk from the perspective of Financial Liabilities is negligible. The investment is guided by tenets of liquidity, safety and returns. This ensures that investments are only made within acceptable risk parameters after due evaluation.

Fixed deposits are held with highly rated banks and have a short tenure and are not subject to interest rate volatility.

B. MANAGEMENT OF CREDIT RISK:

Credit risk refers to the risk of default on its obligations by a counterparty to the Company resulting in a financial loss to the Company. The Company is exposed to credit risk from its operating activities (trade receivables) and from its

Notes to the Standalone Financial Statements (Contd.)

financing activities including investments in deposits with banks.

Credit risk from trade receivables is managed through the Company's policies, procedures and controls relating to customer credit risk management by establishing credit limits, credit approvals and monitoring creditworthiness of the customers to which the Company extends credit in the normal course of business. Outstanding customer receivables are regularly monitored. The Company has no concentration of credit risk as the customer base is widely distributed.

The Company's customer base is large enough and does not have risk of credit concentration. Further, credit is extended in business interest.

C. MANAGEMENT OF LIQUIDITY RISK:

Liquidity risk is the risk that the Company may not be able to meet its present and future cash obligations without incurring unacceptable losses. The Company's objective is to maintain at all times, optimum levels of liquidity to meet its obligations. The Company closely monitors its liquidity position and has a robust cash management system. The Company maintains adequate sources of financing including debt and overdraft from domestic and international banks and financial markets at optimized cost.

Note 31

The company offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority.

Significant management judgment is required in determining provision for income tax, deferred income tax assets and liabilities and recoverability of deferred income tax assets. The recoverability of deferred income tax assets is based on estimates of taxable income in which the relevant entity operates and the period over which deferred income tax assets will be recovered.

During the year, the Company has not accounted for tax credits in respect of Minimum Alternative Tax (MAT credit) of Rs.105.12 lakhs (March 31, 2017 Rs. 43 lakhs, April 1, 2016 Rs. NIL). The Company is reasonably not certain availing the said MAT Credit in future years against the normal tax expected to be paid in those years and accordingly has not recognised a deferred tax asset for the same
